MEPS-HC Jobs file

William Carroll, MA

Employment Section Design

- Variables on the JOBS file come from the Employment section of the HC
- Emphasis on having a continuous time line of employment history over the Panel for each person
 - Need complete information on employer-based health insurance
- Also interested in:
 - Indicators of job quality
 - Employment data that relates to earnings

The Basics 1

- Employment data is collected for each person age 16 and older in each round
- Employment status (EMPST31/42/53):
 - "currently employed" if job at interview date;
 - "has job to return to" if did not work during the reference period but had a job to return to as of the interview date;
 - "employed during the reference period" if no job at the interview date but did work during the round;
 - "not employed with no job to return to" if the person did not have a job at the interview date, did not work during the reference period, and did not have a job to return to.
- Categories are mutually exclusive

The Basics 2

- Most workers have only one job at time of initial interview
- If more than one job
 - Respondent designates one as Current Main Job
 - Other jobs are Current Miscellaneous Jobs
- Job held in the round that ended before interview date is "Former" job

Employment Updates

- Special update module used in Rounds 2-5
 - If Current job continues from prior round, limited update
- If person not working in previous round, asked if working in current round
 - ▶ If yes, then collect complete information

Job Changes

- If prior round Current Main or Current Miscellaneous job does not continue at current round interview
 - Becomes Former Main or Former Miscellaneous job
 - If new Current job added, then collect complete information

JOBS File

- Each JOBS file covers one calendar year
- All jobs included on file
 - Population/Consolidated files only have Current Main Job
- No editing done to JOBS variables
- No weights on file
 - Must link to file with weights

JOBS Records

- Records are at person/round/job level
 - ▶ If same job continues for more than one round, then separate record for each round on file
 - Person reporting on multiple jobs in round will have one record per job on the file for that round

JOBSIDX Variable

- JOBSIDX (e.g., 00002025501) is unique identifier for each record
 - Person identifier (DUID & PID): 00002025
 - **►** Round (RN): **5**
 - ► Job number (JOBSN): 01

JOBSN Variable

- JOBSN is assigned using 2-digit counter
 - If job continues for more than one round, JOBSN does not change
 - ► If new job introduced in round, then its JOBSN set to one greater than highest JOBSN for a job in round for that person
 - Rare but possible: Two jobs for a person with same JOBSN in different rounds

Continuing Jobs

- STILLAT (Main) and STILLWRK (Misc.) indicate if job continues from prior round
- For jobs that continue from a prior round many variables coded as -1 (inapplicable)
 - Look back to prior round's data if -1 in current round

Job SUBTYPE Variable

- SUBTYPE indicates job type
 - ▶ 1 = Current Main Job
 - 2 = Current Miscellaneous Job
 - ▶ 3 = Former Main Job
 - ▶ 4 = Former Miscellaneous Job
 - ▶ 5 = Last Job
 - ▶ 6 = Retirement Job

File Variables

- All data not collected for all jobs
 - Most information available for Current jobs
- Not all variables relevant for all records
 - Some variables pertain only to self-employed; some only if working for someone else
- -10 value: Earnings and "Number of Employees" variables topcoded for confidentiality

AHRe Earnings Data

- Data on file reflect variety of ways that people are paid
- Earnings variables can be reported as gross salary, bonuses, tips, etc.
- Job may have more than one type of earnings associated with it
 - Hourly wage plus tips
 - Annual salary plus commission

Health Insurance Variables

- Health insurance coverage collected for each job type in initial round reported
- EMPLINS (main jobs) & JOBHASHI (miscellaneous jobs) indicate health insurance coverage through job when job first reported
- For jobs continuing from previous round
 - Updated if not enrolled in prior round
 - If not offered in previous round ask NOWTAKEI (Now offered?)
 - If offered but chose not to enroll ask OFFTAKEI (Now enrolled?)
 - Not updated if enrolled in prior round
